

LINDR COLD BRIDGE H6 TOWER

You no longer have to look for a compromise between design and cutting-edge technology, the LINDR COLD BRIDGE H tower with six taps offers both

Clean stainless steel lines without a single weld together with the unique recirculation technology to the taps makes this tower a clear candidate for a place in your business.

| BENEFITS AND USEFUL FEATURES

RECIRCULATION - The unique design of the tower ensures cooling of the beverage up to the tap via a fully insulated coil.

DESIGN - Massive, all-stainless steel construction without welds meets the strictest requirements for design purity. The surface treatment is possible in polished stainless steel or with sandblasting.

KEEPING CLEANLINESS - The stand has no flanges, making it easier to keep clean.

CHOICE OF TAPS - There is a selection of classic or lever taps with different types of handles.

PRESENTATION OPTIONS - The model allows the placement of wooden advertising and backlit medallions with their own logo.

BEVERAGE LINES - The construction of the tower offers a basic diameter of 8 mm for beverage management in a stainless steel design with the possibility of change to 10 mm.

LINDR COLD BRIDGE H6 TOWER

NUMBER OF TAPS (PCS)
