- Regulation (UE) 10/2011 and subsequent updates and modifications
- DM 21/03/1973 and subsequent updates and modifications
- D.P.R 777/1982 and subsequent updates and modifications

This declaration incorporates all the regulatory updates that came into force up to the date of issue of the document.

3. Composition of the materials

The plastic materials are manufactured with the following materials and substances :

- LDPE

4. Specific migration limits (SML)

4.1 Substances subject to restrictions

We declare that the materials do not contain substances subject to restrictions in the mentioned regulations and respect the limits of global migration and the specific restrictions.

4.2 Test of global migration

Simulator	Time e temperature** of test
B – D1	10day at 40°C

*** references in Regulation UE 10/2011 and following updates.*

The results of the migrations are compliant assuming that the article comes into contact with at least 0.25 kg of food.

4.3 Dual use substances

We declare that the materials do not contain substances regulated by Regulation (CE) 1333/2008 and Regulation (CE) 1334/2008 (dual use). Following experimental data and/or theoretical calculations these substances are in conformity with the dispositions of art 11 comma 3 letters a,b, of the EU regulation 10/2011 and DM 21/03/73.

5. Exclusions

The material results compliant and therefore suitable for contact:

- With all types of food products, except the fatty ones according to the attachment III, Table 3, Reg(EU) 10/2011
- In any prolong storage at room temperature or lower, including conditions of hot filling, up to 100° C, according to the attachment V, Table 3, Reg(EU) 10/2011

6. Limits of use

Do not use in traditional oven or microwave

7. Date and signature

All the substances not intentionally added, derived from reaction intermediates and/or decay products (NIAS) were considered, in the use conditions described, in evaluation of the risks according the 19th article of the UE 10/2011 regulation e resulted compliant to the limits prescribed by the overview of the regulation.

The industrial or commercial use of this material depends from the verification of its compliance with current legislation, including their restrictions, and their technological suitability for the purposes of its use. This declaration is not valid in case of the misuse of the product concerned (for example, with the adding of every other substance not compliant to the above legislation or with any techniques or working condition that may deteriorate the product composition).

This declaration is valid starting from the date below and it will be replaced when substantial changes will be made in our production able to alter the essential compliance requirements.
